CUSTOMER FOCUSED

SHARM LIGHTING EXPERIENCE(S.L.E.X)

We in Sharm Light company realize the importance of true understanding of our customer's inspirations and needs, and work to provide, and for this reason we start our work by getting as much information as possible from all segments of society that we aim them:

The priorities, values and aspirations, as well as the things that attracts them and doesn't attract them.

By using these ideas Sharm Light Company's designing team with diversified and multiple specialty engineers will be enabled to find proper solutions which ahead our customer's needs and exceeds their outlook, so as a result will progress their business .

SHARM LIGHT COMPANY

Sharm Light company is working on leadership shifting towards solutions for saving energy , as he is a pioneer in the world for production of lighting materials .

As a matter of fact 25 % of consumed electricity in Middle East is used for lighting , so by using energy saving strategy will make less rates of electricity consumption all over the world which will result to reducing emission of carbon dioxide CO2 .

Sharm Light company provides advanced solutions for saving energy for all sectors : lighting of streets – offices – hotels – homes – industrial establishments, as well as Sharm Light is the pioneer company for shaping the future through new applications and interesting technology which supplies the lighting , such as LED technology .
